Indigenous Community Science Seminar
Thursday, Sept 3, 2015

Seminar topic: Climate change and adaptation strategies

Description: This is a half-day seminar held by the Indigenous Water Project. This seminar will include presentations and participant discussions about recommended reading and will focus on regional and global adaptation strategies discussed in scientific and academic literature. The organizers will provide participants with recommended articles and an outline of the key points for each article.
In this 1st seminar, we'll focus our attention on the following:

- Introduction to climate change challenges and stages of adaptation planning
- Provide examples of adaptation strategies.

Who should attend: Citizens of tribal nations living in rural and urban centers who want to learn about climate change. Governmental employees are also encouraged to register. Registration will be limited to the first 15 people. Tickets are non-refundable because of the small size of this seminar.

Location: Nisqually Indian Tribe, Department of Natural Resources, 12501 Yelm Highway S.E. Olympia, WA 98513, Building #2

Registration: http://hozhoseminar2015.brownpapertickets.com/

Registration closes on July 17th.

Schedule:
Thursday, Sept 3, 2015
8:30am-12:30pm

Cost (includes registration service fee):

Tribal citizenship:	$42.39
Governmental rate:	$73.44
