Nisqually Clinic on the following dates:**

September 23—25, 2015

****Please note that if appointments arrive more than 15 minutes past the scheduled start time, we will need to reschedule your appointment in order to avoid impacting other scheduled appointments. Thank you for your attention to this matter.**

**Marcianne Allen, (Colville/Skokomish) BA Social Sciences, WSU and WA State Certified Counselor
#CL60145619**

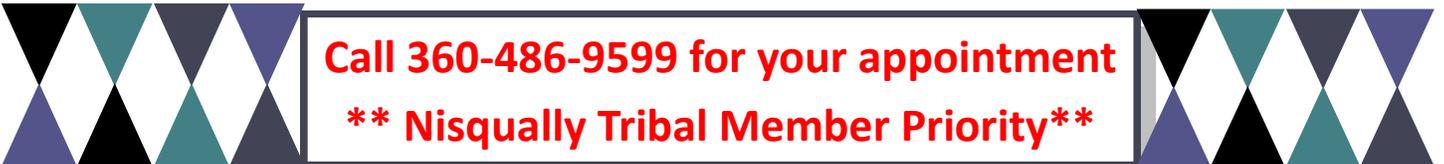

Karen Lilly, (Mississippi Band of Choctaws} MSW, LICSW and WA State Licensed Independent Clinical Social Worker # LW00005176

Marcianne and Karen are natural born healers and spiritual channelers who have studied numerous modalities of healing, including, breath work, shadow work, regression therapy, guided imagery, EMDR, healing touch, aromatherapy and many others. Both healers are Reiki Masters and Certified Spiritual Counselors of the International Assembly of Spiritual Healers & Earth Stewards Congregations.

Their extensive training, education, spiritual intuitive gifts and insights bring strength and inspiration to others who may be open to receiving spiritual support in releasing physical, mental, emotional and spiritual blocks, distortions, and interferences. Whereby, allowing their higher spiritual selves to open and receive healing on core issues and patterns of behavior.

These core issues and patterns may cause fears/doubts about our true power and nature, while cycles of behavior patterns and emotions distract and exhaust our energy bodies (Mind, Body & Spirit). These patterns have a tendency of keeping us stuck in a never-ending loop which draws confusion and emotional disruptions.

By releasing and healing core issues and patterns (old Stories from past and present), we become balanced, clear and integrated with our true selves. We are able to move forward with these positive changes and understand and perceive our life purpose and challenges in a new light. Our motto: "We can only take someone as far as we are willing to go in our own healing."
