**High Mobility Artillery
Rocket Systems
(HIMARS) Test
Public Meeting**

**Friday, Sept. 23 - Billy Frank Jr. Building
5:30 to 7:30 p.m.**

Light Snacks Served

Tribal Council invites all tribal members and community members to provide input as well as receive information about the testing slated for Sept. 27-Sept. 29. The council would like as many residents as possible to remain on the reservation during the testing days to provide valuable input about the noise relative to the “usual” noise from cannon and small arms fire as well as aircraft noise. Forms will be distributed to record your experience and available around the community prior to Sept. 27.
