

Nisqually Public Works Announcement

Statewide Drought Declared

Washington Drought Declaration

Low Snowpack and Dry Forecast

What Can Nisqually Tribal Members Do To Help?

Nisqually Tribe residents and enterprises can help by limiting water used in many ways.

For example:

- Limit any irrigation to 30 minutes every OTHER day according to your address. Even number address waters on only even-numbered days and odd addresses on odd-numbered days.
- Refrain from filling pools this year, that saves thousands of gallons a week.
- Limit car washing or use the commercial car washes which use less water than home washes
- Wash only full loads of clothes or use the lower water settings for small loads
- Consider installing low flow shower heads, faucet fittings and toilets

It's important that everyone aids in conserving water for the community.

Nisqually Public Works is committed to helping maintain a sustainable future. <https://ecology.wa.gov/about-us/who-we-are/news/2024-news-stories/april-16-drought-declaration>
