

PHARMACY

The pharmacy is part of the Nisqually Tribal Health Clinic. As part of the health care team, the pharmacy works with the medical, dental and mental health departments to ensure your safety, and maintain the wellness of the Nisqually Tribal Contract Care Members.

Our approach

In addition to dispensing medications as prescribed, our focus on patient wellness, safety, and satisfaction are evident in the way we do business.

We carefully review medications for allergies and interactions to ensure patient safety.

Our pharmacist waits on many of our customers which creates the opportunity to help patients manage their healthcare and ask any questions. When refilling prescriptions, the pharmacist may direct the patient to their medical provider for additional screening if needed.

Our customer waiting time is less than many other local pharmacies and we are able to provide a more personalized, respectful service to our patients.

We interact with patients more frequently than the providers, so we listen carefully and respond to any questions we are able to answer. We do not transfer a customer to another department to get them off the phone. We find the proper person for them to talk to or we take care of the problem ourselves.

Certified Pharmacy Technician

Kristine Scott,
Certified Pharmacy Technician

Additional services

Medication bubble packs

We provide bubble packs for tribal elders which helps elders take their many medications properly. Bubble packs help patients remember to take their medications and provide a visual confirmation that they have or have not taken their medications.

Automatic refills and reminder calls

Patients can sign up to have their maintenance medications automatically refilled, and even receive an automatic phone call when their medications are ready to pick up at the pharmacy.

Contact the pharmacy when:

You want to refill your prescriptions.

If you are out of refills, call us and we will request refills for you from the prescriber(s). If the prescriber does not want to fill the prescription, we will let you know to make an appointment. If you have a new prescription from a referred provider, let us know!

You want to transfer your prescriptions to the Nisqually Tribal Pharmacy

We will help you transfer your prescriptions from other pharmacies so that you can benefit from our expert care.

Your information has changed

If your insurance information changes, if you have a new allergy, or if you are pregnant, call us so that we can update our records to provide you better service.

You have questions or concerns

If you have any questions about your medications, require assistance with your diabetic supplies or any other concerns, contact us directly.

You want to quit smoking

We have smoking cessation products and information to help you quit smoking. See below for more.

Contact us

The best way to contact the pharmacy is through our main line at (360) 491-9770.

This is the way to ensure you get service. Contacting a personal direct line often delays service, as people may be on vacation, sick, training, etc.
