

Moderna Vaccine is now available to all household members of Tribal Employees.

If household members age 18 and over, are already regular Nisqually Clinic patients, they may call **360-413-2733** to schedule their first Moderna COVID-19 vaccination.

If an individual is NOT registered with the Nisqually Clinic, to obtain a vaccination, please have each person age 18 or over in the household:

- Completely fill out the attached registration form.
- You must physically sign the document. An e-signature is not enough.
- Make a copy of both sides of your insurance, Apple Health or Medicare card.
- FAX the above two items to 360-438-9856 OR
- Email to lisa.wells@nisquallyhealth.org or jacob.peterson@nisquallyhealth.org

This will create a “Special Services” account in our electronic health record system for each person. This does not make the individual a regular client at the Nisqually Clinic.

The Nisqually Health Business Office will create the necessary account. Please give them a little time to do this. **Call 360-413-2733** to schedule your Moderna vaccination. Your vaccination cannot be scheduled until the paperwork is processed and an account created.

We are currently distributing vaccines in two ways:

- Monday, Tuesday and Wednesday Clinics inside the building at Billy Frank, Jr gym. These clinics are by appointment only and take from 30 – 45 minutes.
- Friday drive through event at the Nisqually Youth and Community Center. This clinic is also by appointment only and takes from 30 – 45 minutes.

The day that you are receiving the vaccine, complete the patient acknowledgement form and bring it with you.

Please call the scheduling line with any questions. **360-413-2733**
