

Standing Together in Support and Awareness

In recognition of Brain Tumor Awareness Month, the NTHWC team came together in gray to honor Brandy Hawes, MA, and her husband, who is bravely facing a terminal diagnosis. This moment of unity reflects the compassion, strength, and support that define our NTHWC family.

Brain tumors can affect anyone, and early detection matters. Please be aware of the signs: Persistent headaches, Seizures, Vision or hearing changes, Memory loss or confusion, Balance or coordination issues, Changes in speech or behavior

If you or a loved one is experiencing any of these symptoms, preliminary testing is available through your NTHWC provider. 📞 Call (360) 459-5312 to schedule an appointment.

Join us as we raise awareness, uplift one another, and continue walking the path of healing together.
