

# Divers Prepare!

**Make a dental check-up part  
of your 2020 dive season preparation!**

Sometimes infected teeth need to be removed and it's important not to disturb the area during the healing phase.

***Did you know - a minimum of  
4-6 weeks is recommended  
for some dental issues to heal  
before diving!!!!***

Call the Nisqually Dental Clinic today  
to schedule a check-up 360-413-2716
